## About This Game

You are a mine worker, stuck deep in an underground cave system. All you have are your hi-tech mining tools. In order to get out of the caves, you will have to shape the dynamic environment to your advantage. You can also create force fields for different purposes. Roast enemies with the laser field or jump higher with the bouncy field, for example.

The game contains many puzzles, deadly traps, and bloodthirsty monsters. You will have to use clever and unconventional ways to get past them.

By finding treasure you can boost your abilities, making your quest for freedom and a well-earned vacation slightly easier to achieve. Get a scanner to see through walls or a scifi version of the good old ninja rope to be the king of the rock jungle!

And of course there's a story! Something weird is going on in the mines. Your employer isn't what it looks like, you are hearing strange voices, and there's some maniac running around in the mines and sabotaging things. What's your role in all of it? Find out!

There's also multi-player! Whereas the single-player mode is more about adventuring and solving puzzling problems, the multi-player mode is all about fast-paced action and destruction! The dynamic environment and many different weapons, tools, and tricks allow endless tactical possibilities to beat your enemies.

I don't have a rational reason for purchasing these dlc packs, so I'm afraid that I cannot provide you with one. I sincerely apologize.

If you are interested, the burblings of my subconscious desires that caused me to purchase went something like this: "ughcollectlittlemenwantSfullydEtailedandeXtremelygeekyStuffdEmandalleXcellentcollectingmugh". Retro genius of the highest order. Love it!. It's cheap and it's quite grand music. Worth the quid.. it is a very good add-on, i highly recommend it. Whatever you do don't start the engines manually as the aircraft will go mental. 10V10 They sell baguettes on Edboreth

And the game is really interesting, making you analyse a language.. Alone in the room.... Check  
At night..... Check  
No other sound on... Check

I am ready for another horror game... This one is also very short.. for being a quick 5 level exploration game.  
The sound.. The Setting.. the dust in the air.. the creepy note.. everything is quite well made. There are just really 1 note puzzle in the entire game of 10 minutes.

For it's worth... I did get one big jump scare near the end of the game and it got me quite good.

Lack of content is problem of this very short horror game once again. But i am sure those of us that needs to be spooked every once a while wouldn't mind a small game like this to boot us up..

7.5/10.. very quick short game to scare yourself or girlfriend a little.. play it if you already own it.. it's not long but quite well made.

---

With the Hellfire update, I highly recommend this game. The multiplayer aspect this adds is amazing - feels like you really are in the mech. Really hoping the Multiplayer community continues to grow on this one.

Devs - please add the ability to add bots to a match! That would really future proof this game.. Luxor has always been one of my favorite match-3 games alongside many others; mostly played during my late childhood. This version of Luxor, after almost 10 years, takes the cake. Fast paced action, amazing soundtrack, and definitely more intense than its predecessors. Not only that, but you also have bonus levels within the game. (You'll have to find out what they are yourself, though.). Still one of the most addictively fun little distractions ever made. Love to go back every now and then just for a quick diversion occasionally.

Just watch one of the demo videos and you'll know all you need to know about gameplay. With the cool backing soundtrack, the fun little sound effects and fanfare melodies when you make a good shot or get an extra life or clear a level, and all the cool power-ups... it's just fun to waste time in it and try to beat your high score.. \u2b50\u2b50\u2b50\u2b50\u2b50. Amazing Game. Adding epicness they gifted Nemesis Realms to all owners of this game, so overall just an amazing company.. I'm definitely having fun discovering the different plants. The art style is simple and cute and I enjoy the overall atmosphere. The only downside is when my mouse disappears from the screen- even after I hit esc to do the quick fix there are still issues. Specifically I mean that I am no longer able to select my seeds even after this quick fix. I would also love if there was a separate slider for music volume vs ambient sounds.. Amazing game
